

Jeunesse Founders Bonus Pool For MonaVie / mynt Distributors (Current and New)

2% of the MonaVie/mynt global CV will be paid quarterly to members who purchase the Founder's Package. 1000 CV of Personal Group Volume (PGV) and Personal Volume (PV) = 1 share. The proceeds are divided evenly based on shares obtained by the Founder member. The value of the shares will vary from one trimester to the next, depending on the number of qualifying points vs. the total company CV sales for that quarter.

Note: A Founder must be qualified for all three calendar months each trimester in order to qualify for each Founders Bonus Pool. Any non-qualifying or new Founder will have to wait until the following trimester to participate.

For example: if a new Founder joins mid-March and the second trimester does not start until April, they will not be able to participate in the Founders Bonus Pool until April 1. However, if a new Founder joins mid-April and they are able to meet the monthly requirements for April, May, and June, then they will be considered qualified.

A retail customer, preferred customer and a wholesale customer all are considered valid customers for the founders pool. A wholesale customer is someone who buys less than a supreme package (basic packages, core packages and individual products). They will continue to count as a customer as long as they do not engage in distributor like activity.
